

AMENDMENTS

In the Specification:

Amend the Abstract of the Disclosure as follows:

~~To provide~~ The invention provides a circulating type bank note depositing and dispensing machine [[11,]] with which the ~~progressing state~~ progress of [[a]] depositing ~~process~~ and [[a]] dispensing ~~process~~ are ~~is~~ made visible from a customer side, ~~capable of quickening~~ speeding up ~~the~~ temporary storage of deposited bank notes and ~~quickening and~~ facilitating the return of the temporarily stored bank notes [[when]] if the depositing deposit is not approved. The bank note depositing ~~port 23 and bank note~~ and dispensing ~~port 22 ports~~ ports are, ~~respectively,~~ disposed on the upper side of the machine body [[14]], ~~and it becomes~~ making it possible for a customer to observe or check the ~~progressing state of a depositing process~~ progress of a deposit or [[a]] dispensing ~~process~~. ~~The temporary storage portion 35 of~~ Temporarily stored deposited bank notes [[is]] are disposed in the front side area of the machine body [[14]], ~~and the deposited bank notes are collectively and temporarily stored in the temporary storage portion 35 of deposited bank notes, wherein temporary storage of deposited bank notes is quickened. When~~ if the depositing deposit is not approved, the front side door [[36]] of the temporary storage portion 35 ~~is opened,~~ opens to allow the temporarily stored bank notes ~~are collectively to be~~ taken out from the front side of the machine body 14, [[and]] facilitating the quick return of the temporarily stored bank notes ~~is quickened and facilitated.~~
